

DOG AND CAT
FOOD

DOG FOOD
HERBAL LINE

GRAVIDITY G1

Complete food for female and male dogs of all breeds and sizes in the period of preparation for mating, during mating, and later until the 42nd day of gravidity. It is intended for dogs that cannot enter the period of estrus, which whelp a small number of puppies, all female dogs before the estrus period, males who have a problem with reproduction and those who have a large number of mating. It is also intended for all adult dogs that need to improve the gloss and density of hair. It is supplied with all necessary macro and micro elements. Rich in omega 6 and omega 3 fatty acids.

Composition: dehydrated turkey, chicken and tuna 28%, rice 18%, chicken fat, cold pressed vegetable oils, fish oil, linseed 4%, sugar beet pulp, hydrolysed liver, brewer's yeast, mixed medicinal herbs 2%, inulin (chicory extract).

FEEDING RECOMMENDATIONS

SPECIAL

74% protein of animal origin

Complete food for choosy, grownup dogs of all breeds and sizes. Contains easily digestible meats – lamb and tuna. Well-balanced fats provide high-energy rates recommended for regular and medium active dogs. Special is especially suitable for gluten allergenic dogs. It does not contain cereals with gluten; it is rich in rice, which in combination with lamb provides easy digestion. It tastes great; it is easily accepted so, it is recommended for all choosy grownup dogs. The food is rich in many macro and micro ingredients that influence darkening of gums in competition dogs. Natural manno oligosaccharides (MOS) in combination with fructooligosaccharides (FOS) provide high utilisation levels of all nutritional elements.

Composition: dehydrated lamb and tuna 31%, rice 31%, oats, chicken fat, cold pressed vegetable oils, fish oil, linseed 6%, sugar beet pulp, potatoes, hydrolysed liver, brewer's yeast, dried apple, inulin (chicory extract), MOS (yeast extract), lecithin and psyllium

SUNRISE

72% protein of animal origin

Complete food for strengthening dog immunity, for sensitive and allergy prone dogs Rich in required macro and micro ingredients and gluten-free cereals. It is intended for all categories and dog sizes, and due to the content of lamb, duck, tuna and rice, it is especially good for dogs with allergy and digestion problems. Balanced ratio of fructooligosaccharides and mannoooligosaccharides with natural source of vitamin B group provides excellent hair quality and maximum food utilisation with minimal stress on internal organs. Sufficiently high and well-balanced energy portion in combination with potatoes, omega 6 and 3 fatty acids, especially DHA, helps in resolution of excess weight, allergies and stress.

Composition: dehydrated lamb, duck and tuna 27%, rice 27%, oats, cold pressed vegetable oils, chicken fat, fish oil, linseed 4%, sugar beet pulp, potatoes, hydrolysed liver, brewer's yeast, dried apple, inulin (chicory extract), MOS (yeast extract) and lecithin.

SUPER SPORT

77% protein of animal origin

Complete food for grownup hyperactive dogs and dogs of all breeds and sizes. High-energy food, rich in essential fatty acids and highly digestible proteins obtained from the highest quality meats. High-energy content with well-balanced fatty acids provide easy recovery of the body after heavy workloads of sporting and work dogs. Food rich in macro and micro ingredients, with omega 6 and 3 fatty acids maintains dark gums and provides exceptionally shiny and well-pigmented hair in competition dogs. Apart from government and work dogs, it is also aimed for dogs in weaker physical shape.

Composition: dehydrated chicken and tuna 30%, rice 18%, corn, oats, chicken fat, cold pressed vegetable oils, fish oil, linseed 5%, sugar beet pulp, brewer's yeast, hydrolysed liver, inulin (chicory extract), MOS (yeast extract) and lecithin.

CAT FOOD
SUPER PREMIUM

FANCY

Complete food for young and grownup cats of all breeds and choosy palates. Quality chicken and turkey meat will satisfy tastes of cats with the choosiest palates. Well-balanced fats in combination with required macro and micro ingredients provides healthy skin, shiny hair and sufficient energy for both homebound cats and the cats that spend their time outside their owners' home. Appearance of ureteral calculus has been decreased due to good pH balance from 6,0 - 6,5. Dietary fibres prevent formation of hairballs.

Composition: dehydrated chicken and turkey, corn, rice, cold pressed vegetable oils, chicken fat, sugar beet pulp, cellulose fibres, dehydrated hydrolysed liver, brewer's yeast, sea algae, Yucca Schidigera, taurine, potassium chloride.

SLEEPY

Complete food for kittens, young cats, pregnant cats and lactating cats
 Quality, easily digestible proteins obtained from poultry only – chicken and duck, along with high energy, provide all required ingredients for proper development and growth of your pets. Dietary fibres prevent formation of fur balls, and pH value of 6.0 - 6.5 decreases appearance of ureteral calculus.

Composition: dehydrated chicken and turkey, corn, rice, cold pressed vegetable oils, chicken fat, sugar beet pulp, cellulose fibres, dehydrated hydrolysed liver, brewer's yeast, sea algae, Yucca Schidigera, taurine, potassium chloride.

SLIM CAT

Complete food for sterilized and less active cats with overweight problem. Food adjusted to less active cats and cats that have tendency towards gaining weight (neutered and castrated cats). Made by combining animal source proteins obtained from the highest quality meats and easily digestible cereals. High protein content with low fat percentage allows maintenance of muscular mass along with weight control. Fibre content (cellulose) provides easy digestion and contributes to fur ball extraction. Product's pH value prevents formation of ureteral calculus.

Composition: dehydrated chicken and turkey, corn, rice, cold pressed vegetable oils, chicken fat, sugar beet pulp, cellulose fibres, dehydrated hydrolysed liver, brewer's yeast, sea algae, Yucca Schidigera, taurine, potassium chloride.

Important note: The products do not contain synthetic colouring, added amino acids, genetically modified organisms, flavouring agents and aromas. They do not contain wheat or soy-bean.

“PREMIL” Ltd. was founded in 11.04.1995. and registered as specialized pet food producer.. Our customers are true animal lovers who always choose the best for their pets. We are proud of the fact that top professional dog breeders whose pets win many dog shows in the country and abroad use our products.

For several years now, in addition to our own brand, our product range has also been including private-label (PL) products which we manufacture for the best known, very successful companies.

Verified and quality proven products, have been made since July 2012 in the factory located in Kovin, using the new, modern, fully automatized equipment.

The factory was constructed within the PSOM project (Programme for Cooperation with Emerging Markets), under the watchful eye of the Dutch Government, and with assistance by the Dutch Government to which we owe great gratitude. Since the beginning “Premil” has been aware of the fact that only serious work and high-quality products can secure one’s strong position on the market, and because of that the company relies on our long-term trustworthy suppliers, top-quality raw materials and exclusively natural ingredients. We were among the first companies (in the industry) to complete the ISO 9001 and HACCP certification process and to obtain the Quality Austria Certification as early as 2008.

In 2013 we also introduced the demanding food safety standard FSSC 22000.

All these years we have been paying greatest attention to the quality of our products, which is the responsibility of the team comprising top technologists, veterinarians and breeders.

With our slogan **MAXIMUM QUALITY, MINIMUM PRICE**, and owing to our professional approach and dedication to work, we have gained the necessary respect of our customers which has enabled us to survive and spread our sales network on the markets already won by the globally recognized and acknowledged pet food manufacturers.
